1. INDICATORS

- The General Course Index (Índice Geral de Cursos – IGC) is an official indicator used by Brazil's Ministry of Education (MEC) to assess the overall quality of higher education institutions in the country. The Federal University of Sergipe (UFS) has an IGC rating of 4, placing it among the leading higher education institutions in Northeastern Brazil.

- The Faculty Qualification Index (Índice de Qualificação do Corpo Docente – IQCD) is an indicator used to measure the qualification level of the University's permanent faculty. It is calculated as a weighted average based on faculty members' academic qualifications, using the following weights: undergraduate degree (weight 1), specialization certificate (weight 2), master's degree (weight 3), and doctoral degree (weight 5). Therefore, the higher the IQCD, the higher the overall qualification level of the faculty.

- The Completion Success Rate is an annual indicator that represents the proportion of students who graduate in a given year relative to the number of students admitted in previous academic terms, taking into account the minimum time required to complete each degree program. For example, for a program with a minimum completion time of eight academic terms, the rate for 2021 is calculated by comparing the number of students who graduated that year (XX) with the number of students admitted during the periods corresponding to the program's minimum completion time - in this case, the second semester of 2017 (2017/2) and the first semester of 2018 (2018/1) - for a total of YY previous entrants. The Completion Success Rate is therefore calculated as the ratio of graduates (XX) to previous entrants (YY). This indicator makes it possible to monitor program performance in terms of student completion, taking into account the expected progression toward graduation.

For further information on the Faculty Qualification Index (IQCD) and the Completion Success Rate, please contact DEMDI/CIDI at cemdi@academico.ufs.br

2. PROGRAMS

The Office of the Dean of Student Affairs (PROEST) offers:

- The Professional Learning Development Support Program (PRODAP) provides scholarships for undergraduate students enrolled in on-campus degree programs to participate in activities for 20 hours per week. These activities are designed to help students develop skills and competencies that complement their professional education within the Federal University of Sergipe (UFS).

- Psychosocial support for UFS students is provided by the Student Assistance Psychology Service (SPAE) through psychological support sessions, which offer students a welcoming environment and professional support.

- Inclusion initiatives are designed for students with disabilities and aim to promote accessibility, participation, and continued engagement in academic life, helping to ensure their rights and foster inclusion within the University.

For further information, please contact CODAE/PROEST, which is responsible for PRODAP, at prodap@academico.ufs.br; DIPAI, for matters related to psychological support, at dipai@academico.ufs.br; or DAIN, for information on inclusion initiatives, at dain@academico.ufs.br.

2. PROGRAMS

The Office of the Dean of Extension Activities (PROEX) offers:

- UFS's university extension activities promote interaction between the University and society, contributing to students' academic, professional, and civic development. These activities include programs, projects, courses, and events and are registered in the Integrated Academic Activities Management System (SIGAA), in accordance with the public notices and specific regulations issued by the Office of the Dean of Extension Activities (PROEX).

- The Institutional Program for the Support of University Extension (PIAEX) aims to encourage the participation of students, faculty, and technical staff in UFS extension initiatives, strengthening academic and civic development and supporting projects and activities carried out within institutional programs. Students may participate either through scholarships or on a voluntary basis, subject to the conditions established in each public notice.

- The Extension Activity Registration Program (RAEX) comprises public notices for the registration and institutional recognition of extension initiatives developed at UFS. These include the registration of projects, courses, and events; the creation and renewal of Academic League programs; and the registration and renewal of Junior Enterprises.

- Academic Leagues are university extension programs developed within the University and organized around a specific thematic area or field of knowledge. These initiatives bring together different extension activities, such as projects, courses, and events, promoting student participation and connecting academic education with the needs of society. The creation and renewal of Academic Leagues are regulated by UFS and carried out through specific PROEX public notices.

- Junior Enterprises are university extension programs that enable students to engage in activities related to their academic and professional education, providing opportunities to apply the knowledge acquired during their undergraduate studies in practical settings. At UFS, these enterprises are institutionally regulated, and their activities may include the development of projects, courses, and events, contributing to students' education and the development of professional skills.

2. PROGRAMS

The Office of the Dean of Undergraduate Studies (PROGRAD) offers:

- The Teaching Assistant Program provides undergraduate students with the opportunity to gain teaching and learning experience under the guidance of a faculty supervisor, who supports them in developing skills related to teaching.

- The Tutorial Education Program (PET) brings together groups of students under the guidance of a faculty tutor and aims to provide a broad academic education by integrating teaching, research, and university extension activities. The program seeks to foster students' autonomy, critical thinking, and professional development.

- The Institutional Teaching Initiation Scholarship Program (PIBID) aims to introduce students enrolled in teacher education programs to the realities of public basic education schools. By participating in projects developed in partnership with schools, students have the opportunity to gain practical teaching experience, contributing to their development as future teachers.

- The Pedagogical Residency Program (PRP) is designed for students enrolled in teacher education programs and seeks to strengthen the connection between academic education and professional teaching practice. The program places pre-service teachers in basic education schools, where they experience real life school settings and participate in planning, observation, and teaching activities under the guidance of faculty members from UFS and teachers from participating schools.

- The Pre-Service Teachers at School Program (Prolice) aims to bring students enrolled in teacher education programs closer to the realities of basic education by providing practical experience in school settings. The initiative contributes to the education of future teachers by connecting knowledge acquired at the University with the needs and challenges encountered in everyday school life.

- The Academic Mobility Program enables students to complete part of their academic studies at another higher education institution, in accordance with applicable regulations and agreements. The program broadens students' academic experience, provides exposure to different educational contexts, and contributes to enriching their education.

For further information about these programs, please contact DELIB/PROGRAD at delib@academico.ufs.br
